

Metamark MM-CCG Series

Cylinder Cast Wrapping Film
with MetaGlide® Adhesive

MM-CCG Series is a 100 micron cylindered cast film which features our MetaGlide adhesive technology. It is a professional wrap film for vehicle customisation, for use on fleet, commercial and taxi applications. The next generation micro-channel air release system gives optimal performance with enhanced repositionability, and high adhesive strength. This gives total confidence when fitting into 3D channels and recesses.

Conforming to vehicle lines, curves and corrugations, the product is warranted for up to 8 years with the MetaSure warranty. Available in 1520mm width and a range of colours. Special colour matches can be offered for projects such as fleet branding.

Performance you can trust
