

Metamark MM-CC Series

Cylinder Cast Wrapping Film

Metamark MM-CC Series is a proven and highly effective full, or partial, colour branding vehicle wrap solution.

The Metamark Colour Change Series helps transform and customise a range of vehicles, including fleet and commercial. The 100 micron film offers high opacity and resistance to elongation colour fade during the wrapping process.

The range provides a non-permanent wrap solution with adhesive that offers a clean and trouble-free application, and minimal residue on removal, available in a range of colours.

Performance you can trust
