MetaGuard Decor Series

DécorMark Textured PVC Overlaminates

MetaGuard Decor (MG-W) textured overlaminate provides a highly durable protection over Metamark Digital films. The 150 micron polymeric films offer excellent dimensional stability.

The wall covering films give peace of mind and scuff resistance in high traffic areas. The attractive textured finish hides many imperfections on the wall, and enhances depth of colour to the print, with two finishes to choose from.

Performance you can trust
