

Metamark MD-CV100

Clear Vision - Perforated Window Film /
One Way Window Film

Metamark MD-CV100 is a perforated one-way vision film, supplied on a multi-layer release liner to offer improved print performance. It has 40% open area and 1.6mm perforations. It is suitable for advertising applications on vehicles and buildings, maintaining visibility from the inside.

The black/white laminate has a clear adhesive to maintain full visibility through the holes. It can be applied on lightly curved surfaces like some rear windows of cars but it is not aimed to be deformed in 3D. Overlaminating is recommended to maintain visibility in wet weather.

Performance you can trust
