

MetaGrab® MD-WA01UB

DécorMark Wall Covering with Ultra Tack Adhesive

Metamark WallArt with MetaGrab® adhesive system offers a very high tack, providing an ideal solution for rough, textured, and difficult to stick to surfaces. MD-WA01UB offers an ideal solution for printable wall coverings and enhances the opportunities available for wall décor.

The textured weave finish provides an attractive appearance without lamination, and gives a highly vibrant print image, retaining greater intensity of the colours compared to traditional textile or paper based products. It has a high level of opacity, and makes for no show-through on overlap joins. Printable with Solvent, Eco Solvent, Latex and UV printers.

Performance you can trust
