

MetaWrap™ MD-XB-H

Cylinder Cast Digital Wrapping Media with High Tack Blockout Adhesive

MetaWrap™ MD-XB-H is a 50 micron ultra-conformable digital wrap film, with a grey high tack adhesive. The product is suitable for low energy plastics and hard to stick to surfaces, including vehicle mouldings. The soft film has been developed to flow and conform over the most challenging surfaces so it's ideal for total vehicle wraps.

The film offers high levels of dimensional stability, and offers brilliant colour reproduction on Solvent, Eco-Solvent, Latex and UV printers. Not suitable for silicon or rubber trim.

Performance you can trust
